Subject: RE: NW Natural and Siltronic, Responses to DEQ's September 22nd Comments and November 2011 Meetings

Hello Dana. Attached is NW Natural's December 21 letter responding to DEQ's December 7, 2011 comment letter on Gasco groundwater source control design. A planned source control schedule is attached to the letter.

Happy Holidays to all.

John

Subject: NW Natural and Siltronic, Responses to DEQ's September 22nd Comments and November 2011 Meetings

Tom and Bob.

Attached is DEQ reply to Siltronic's September 30th and NW Natural's November 4th responses to DEQ's September 22nd comments on the Revised Groundwater Source Control Interim Design Report. EPA's reply to NW Natural November 4th is also provided.

A signed hard copy of DEQ's letter will be sent to you via regular mail, including EPA's reply as an attachment.

DEQ's letter also summarizes meetings held in November 2011 to discuss Siltronic's and NW Natural's responses, and documents DEQ's decisions regarding NW Natural's proposed framework for completing design and construction of the Alluvium water-bearing zone (WBZ) extraction wells.

Based on DEQ's review of NW Natural's November 4, 2011 response and as discussed during the November 2011 meetings, DEQ accepted NW Natural's proposed framework for completing design and construction of the Alluvium WBZ extractions wells with conditions. DEQ did not approve postponing construction of the interceptor trench to sometime after implementation of the in-water sediment project due the significant delays in achieving source control of the Fill WBZ which would result.

Please feel to contact me with questions regarding this e-mail.
